

Bagua Pendant

Octagonal Pendant

Metal Frame Stem Suspension

Fauna Panels

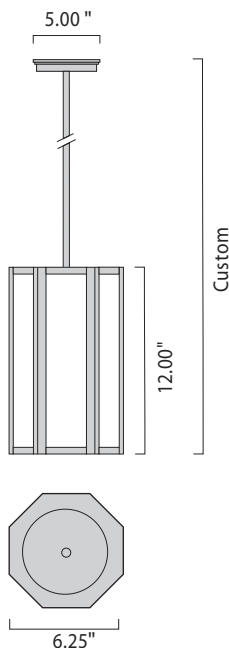

The Fauna Bagua pendant is a suspended luminaire with an eight-sided metal frame available five different finishes including Anitque Brass, Brushed Nickel, Polished Nickel, Polished Brass, and Satin Brass.

Fauna Bagua is part of Feng Shui Lighting's Fauna System and features 8 diffuser panels with original animal photography by acclaimed photographer Ron Greenberg. FSL tattoos the photograph onto an inner layer and then laminates it in between sheets of polished glass. The results are images of Fauna captured at a moment in time and illuminated to be appreciated over time.

The Fauna system offers 9 standard photographic panel options.

The Bagua pendant is offered as a Compact Fluorescent fixture with a GX24q-3 lamp holder for a 26W or 32W lamp. The compact fluorescent option includes an integral ballast.

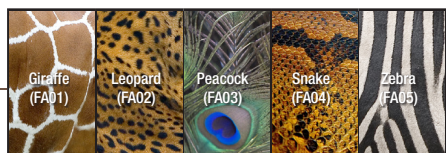

Three suspension types are offered: stem, white cord or black cord.

Fixture Shown: **FABP-FA03-BN-TU12-IN**

LED Light Source Available.
Consult Factory for Details.

Style	Panel Name	Metal Finish	Suspension Type	Lamp / Wattage
