

Bagua Pendant

Octagonal Pendant

Metal Frame Stem Suspension

Flora Panels

The Flora Bagua pendant is a suspended luminaire with an eight-sided metal frame available five different finishes including Anitque Brass, Brushed Nickel, Polished Nickel, Polished Brass, and Satin Brass.

Flora Bagua is part of Feng Shui Lighting's Flora System and features 8 diffuser panels with original flowering plant photography by acclaimed photographer Ron Greenberg. FSL tattoos the photograph onto an inner layer and then laminates it in between sheets of polished glass. The results are images of flora captured at a moment in time and illuminated to be appreciated over time.

The Flora system offers 9 standard photographic panel options.

The Bagua pendant is offered as a Compact Fluorescent fixture with a GX24q-3 lamp holder for a 26W or 32W lamp. The compact fluorescent option includes an integral ballast.

Three suspension types are offered: stem, white cord or black cord.

Fixture Shown: **FLBP-FL09-BN-TU12-IN**

LED Light Source Available.
Consult Factory for Details.

Style	Panel Name	Metal Finish	Suspension Type	Lamp / Wattage
FLBP = Octagonal Pendant	See table above for panel options Example: "FL01" or "FL04"	AB = Antique Bronze BN = Brushed Nickel PN = Polished Nickel PB = Polished Brass SB = Satin Brass	TU* = Stem BC* = Black Cord WC* = White Cord *Specify suspension length in inches _____ Example: TU24 = 24" stem	FL = (1) CFTR 26/32W GX24q-3 120v
