

# Recessed Sconce

## Square and Rectangular Wall Luminaires

### Metal Frame and Stand-Offs

### Palette Color Resin Panel

The PALETTE Recessed Sconce series is a recessed wall luminaire with a decorative translucent diffuser that uses machined aluminium standoffs to anchor the diffuser to the fixture. This design results in a depth of 1" from the wall creating a clean look with an absolute minimal protrusion from the vertical plane. The sconces are available with either natural aluminum or powder coated hardware finishes. Fixtures are available to hold the decorative diffuser panel in three different sizes. Various compact fluorescent lamping options are available. Consult factory for custom options.

The Palette Recessed Sconce is part of Feng Shui Lighting's Palette System and features durable resin lens diffuser panels with a colorization process that provides a vibrant colored block saturated with color. Color is tattooed onto an inner layer that's laminated onto a resin panel with a buffed front surface. The result is a block of dimensional color.

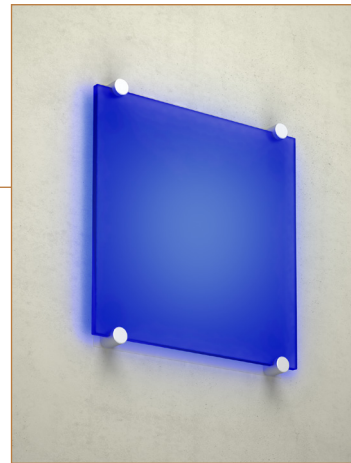

FSL offers 18 standard color finishes for the Palette panels. Custom colors are also available. Any color can be matched by PMS or sample color provided.

The PALETTE sconce is offered as an 18W, 24W, or 36W BIAX Compact Fluorescent fixture. The compact fluorescent option includes an integral ballast. Emergency ballast (EM) option available upon request.

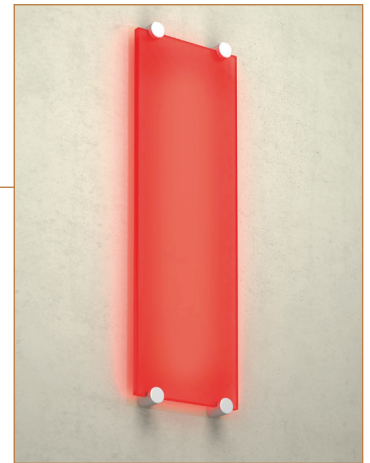

LED Light Source Available.  
Consult Factory for Details.
