

Surface Sconce

Square and Rectangular Wall Luminaires

Metal Frame

Plates Paper-In-Glass Panel

The PLATES Surface Sconce series is a wall luminaire combined with a flat paper-in-glass panel available in three sizes with a flat or curved shape. The sconces are available in natural aluminum or powder coated hardware finishes. Various compact fluorescent lighting options are available. Consult factory for custom options.

Handmade paper is encased within laminated glass to create the glass panel. The organic nature of the paper produces this nature-inspired illumination.

FSL offers 10 standard types of Plates panels.

The PLATES surface sconce is offered as an 18W, 24W, or 36W BIAx Compact Fluorescent fixture. The compact fluorescent option includes an integral ballast. Emergency ballast (EM) option available upon request.

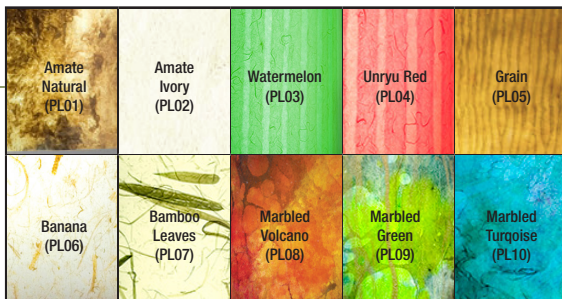

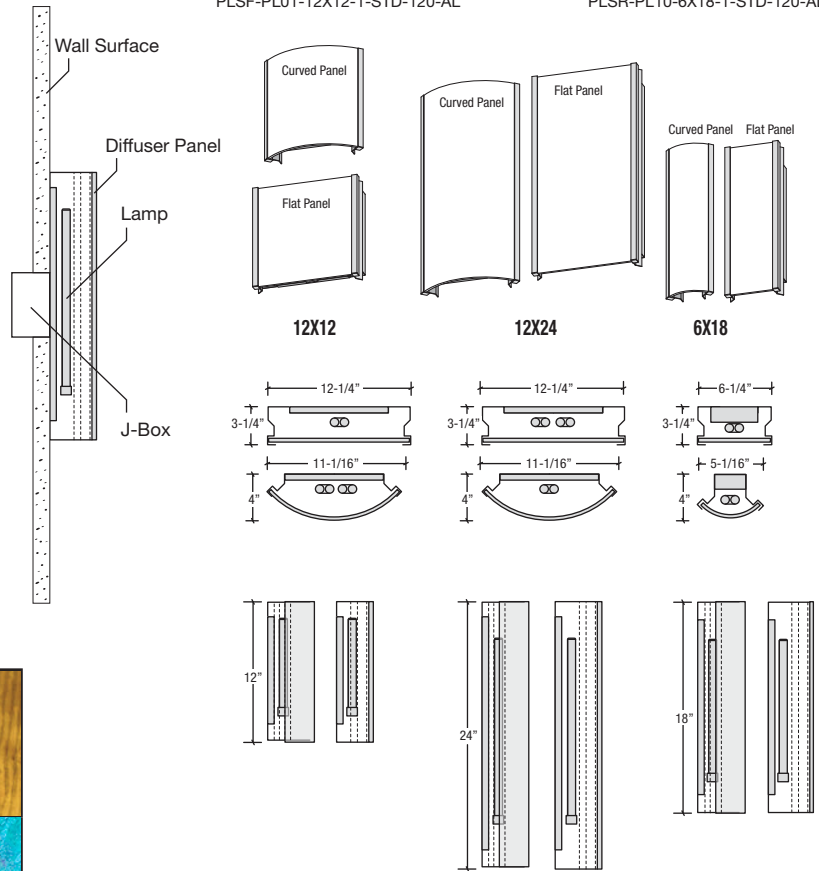

LED Light Source Available.
Consult Factory for Details.
